Dear Ms. Ryan:

Thank you for giving us the opportunity to comment on the proposed Quiet Water Development.

The Oregon Department of Transportation has supplied us with a copy of a letter they sent to Mayor Canfield that addressed a proposed road improvement project between Yachats River Road and Highway 101. They feel that the Quiet Water Development may present economic problems to their road improvement project. We feel, therefore, that potential Goal 12 inconsistencies should be resolved with the Department of Transportation and addressed at the Yachats Planning Commission meeting.

We do not have any additional comments at this time.

Sincerely,

Nancy R. Tuor
Program Division Manager
