July 31, 1979

Charles A. Canfield, Mayor
PO Box 67
Yachats, OR 97498

Dear Mayor Canfield;

Michiko Ryan, City Recorder, sent a notice regarding the Planning Commission meeting on the proposed "Quiet Water Planned Development".

I encourage the Planning Commission to delay action on the proposed development until details of the Yachats River Road connection to Highway 101 can be completed.

Both the City of Yachats and Lincoln County have supported a project to improve the connection of Yachats River Road to Highway 101. Premature development of the area in question may escalate the project cost beyond financing capability.

We hope to offer the opportunity for a public hearing on the River Road project in the near future. After the appropriate alignment has been selected, planning can proceed. Once the plans are completed, the City Planning Commission will have a document to use in responding to the "Planned Development".

Please relay these concerns to the City Planning Commission.

Sincerely,

Don W. Thurston
REGION PLANNING REPRESENTATIVE
